

KULTURECITY® AT YOUR SCHOOL

KultureCity® first originated in the USA, and has been in Australia for a few years now. Its focus is on **making the nevers possible** for people with sensory needs.

In schools, they run annual certification training seminars, which are video modules that only take about an hour or so with a short quiz to follow (the three steps are set out below). They provide backpacks for children with visual aids, sensory aids and headphones.

The certification process for the school is 3-fold, as demonstrated below.

CERTIFICATION PROCESS FOR SCHOOLS

Step 1

50% of student facing staff must participate in the annual training. This consists of an online training video, running between 40-50 minutes, available on the KultureCity® LMS portal. They then must answer 10 quiz questions. A score above 80% is required to pass.

Step 2

The school will be provided with 5 sensory bags, 1 weighted lap pad and 4 type signage for display around the school (e.g., to acknowledge the sensory bags and that the school is KultureCity® certified, etc).

Step 3

KultureCity® will assist the school to develop social stories for the school and the App will be updated for the school.

HOW MUCH DOES THIS COST?

The cost is \$1,110 and then there is an annual renewal fee of \$750.

Spectrum Lawyers are offering sponsorship packages. Five schools will be selected for certification with all costs covered by Spectrum Lawyers.

Apply today for a chance to have your school selected - and be KultureCity® certified!

Contact Spectrum Lawyers before the 31st October 2024 via the details below.
